SPECIAL ISSUE: COUPLED INSTABILITIES IN METAL STRUCTURES PART II

Preface vii

List of Contributors ix

SESSION 3: SYSTEMS—FRAMES, SHELLS AND PLATED STRUCTURES

General Report: Systems—Frames, Shells and Plated Structures . 1
M. SKALOUD (Czech Republic)

Implications of Using Refined Plastic Hinge Analysis for Load and Resistance Factor Design 17
J. Y. R. LIEW (Singapore) & W. F. CHEN (USA)

Sensitivity of Metal Frames Reliability to Semirigid Connections Parameters 49
A. MEBARKI & A. COLSON (France)

Loading Arrangement and Structure as One System — Temporary Instability of Elements and Structure 61
L. HEGEDÜS (Hungary)

Coupled Instability and Negative Shear Lag Phenomenon in Box Girders 73
J. MACHÁČEK, J. STUDNIČKA & V. KŘÍSTEK (Czech Republic)

Interaction of Breathing with the Cumulation of Damage in the Webs of Steel Plate Girders 83
M. SKALOUD (Czech Republic)

Interaction Stability Criteria in Combined States of Stresses for Metal Plates and Shells 97
Z. K. MENDERA (Poland)

Collapse Design of Large Steel Digester Tanks 109
W. GUGGENBERGER (Austria)

Nonlinear Analysis of Static and Dynamic Stability of Metallic Chimneys 129
A. CATARIG, L. KOPENETZ & P. ALEXA (Romania)

Coupled Dynamic Instability of Thin-Walled Structural Systems . 139
M. A. SOUZA (Brazil)

SESSION 4: DESIGN AND IMPACT ON CODES

General Report: Design and Impact on Codes 151
T. TOMA (The Netherlands)

Probabilistic Approach to Elastic–Plastic Coupled Instability . 175
J. W. MURZEWSKI (Poland)

Interactive Buckling Curves for Thin-Walled Sections 189
D. DUBINA & M. GEORGESCU (Romania)

A Practical Approach to the Spatial Buckling of Monosymmetrical Compression Members 203
N. BĂLUT(Romania)

Design of Thin-Walled Plain Channel Section Columns Against Flexural Buckling 219
K. J. R. RASMUSSEN & G. J. HANCOCK (Australia)

Compression Tests of Cold-Formed Steel Columns with Monosymmetrical Section 241
A. MOLDOVAN (Romania)

Interaction Phenomena in Double-Symmetrical Rolled Compressed Members 253
D. GEORGESCU, M. SOARE & M. DINCULESCU (Romania)

Considerations on the Value of the Reduction Factor for Lateral–Torsional Buckling of Beams in Bending 265
D. MATEESCU (Romania)

Effect of the Local Plate Buckling on the Ultimate Strength of Continuous Composite Beams 279
J. M. ARIBERT (France)

The Analysis of Some Practical Methods for Limit State Verification in Coupled Instability — Comparison with the Experimental Evidence 301
N. PATRINICHE, L. NEGREI & D. PREDA (Romania)

SESSION 5: OPTIMAL DESIGN UNDER COUPLED INSTABILITIES

Introductory Report: Optimal Design Under Coupled Instabilities 309
J. RONDAL (Belgium)
